Airplane, Bus, Train, Car... Belgrade (Beograd) is the capital of the country and has international airport. International air transport code for Beograd is BEG. Distance from the airport to city center is approx. 20km and there is a regular bus line you can use. Ticket price is €2 one way. There is also a taxi station at the airport but the drive can get expensive and it is recommended to avoid it.

For quotes on cheapest air tickets, booking hotel in Belgrade if you arrive day before or depart few days after the seminar, travel info... contact Alterna Travel Store , ask for Jelena and refer to Systema Serbia.
